

REPORT OF WOMEN'S TRAINING ON 24 – 28 MARCH AND THE WORK ABOUT THE ROOF OF THE CHURCH IN MAHATSINJO

Because of the supporting of Blean Church, the women from all churches in the parish Ambatondrazaka came to train in Ambatondrazaka on 24 to 28 March. The training was led by the Doctor Agnes, she's a responsible of the reproduction health in the region Alaotra-Mangoro.

There were about 40 women (mothers and young girl) to join this training. They talked about family planning and the nutrition.

Every woman to come this training showed their happiness for this training because it is the first time for some of them to talk about family planning and life skills, especially to talk about education on our time now. I participated the conference about how do we have to do to success our education. We need to change our mind to know the problem of the taboo (Fady in Malagasy). More of the Malagasy think that to talk about sexual reproduction is still in the word of taboo (Fady). But now the situation and the development of the world oblige us to talk about it, especially in our family.

Every day during the training we do the AGAPE with the sharing one another. If God is willing the training may continue on August in Mahatsinjo.

ROOF OF MAHATSINJO:

The work was started on 13 April. As a matter of fact, it had to start on January or February but because of the weather here in Madagascar, we must wait to

dry. Now the work of covering of the roof is finished. The congregation in Mahatsinjo are very happy and thank God and you. I want to pass you their grateful from them. I want show you the photo about the starting the work and the church covered by the metal roof. Next time I will send you the state of spending of the money from you.
