

FEEDING PROJECT REPORT FROM St PETER CHURCH ANDREBA

Where is Andreba? Andreba is about 25km from Ambatondrazaka. It is in the North of Ambatondrazaka. It is the place famous of Bandro (small lemur) and the site RAMSAR. Jim and Sally have passed there on their visit here.

The Church of Andreba is the first Anglican church in our Area. It is near of the Lac Alaotra. The church is dedicated St Peter. It is a parish capital of Andreba with 3 other churches there but it is in the deanery of Ambatondrazaka.

There are more children in this church. They are happy to take news that the feeding project in the parish of Ambatondrazaka is also reached in the parish of Andreba. About 120 children came to the church at this moment.

As I said to you that the feeding project is for us the opportunity to evangelize the children and to bring them to come to church.

I visited Andreba on Sunday 02nd August and met the teacher and the children there. With happiness, they show their grateful to me and to all friends in Blean for the feeding project and they shall that the feeding always continue.

the mothers union and the teachers of Sunday school prepare the food and they are ready to feed the children.

I asked the children how the happiness in their. They answered me that they will not stop to come to church.

Thanks to be God to give us Blean because His blessing is given my parish through the good work of Blean.

God bless you all

Yours in Christ

Revd Olivier, Dean of Ambatondrazaka
